

Temporary Guidelines Regarding Approval of
Appointments
(For University-Wide Use)

This document provides information about current practice and process for submitting appointments to the Board of Trustees for approval. As provided in the University *Statutes*, certain appointments require formal approval by the Board, on recommendation by the President; other appointments do not require Board approval but are then reported to the Board in the "Secretary's Report." (Once approved by the Board, such appointments may be effective the day following the Board meeting at which approval is given.) Finally, please know that a review of the University *Statutes* and *General Rules* is ongoing, including provisions related to this topic, the results of which may lead to changes in the information below. For additional information or questions regarding appointments, please contact the appropriate campus Office and/or the Board of Trustees Office.

Following are four groups of appointments that require presentation to the Board via an agenda item, whether individually or as part of a group of appointments:

- A. Board approval is required prior to the effective date of the appointment via an individual Board Agenda Item for the following positions:
